Let's be honest: sometimes you're asked to read an "important" book that you don't want or have time to read. Sometimes you try and it's just so boring and impenetrable that you can't get through it. And then, even worse, sometimes you're asked to take a test or write a paper about it. If that sounds familiar, then BookHacker was designed for you.

Taking away all the guess work, BookHacker presents the book's warm gooey center in a concise, logical and entertaining way. Just because literary classics can be dry and boring doesn't mean understanding them has to be.
