Issues in Contemporary Christian Thought: A Fortress Introduction Duane Olson

Duane Olson's new textbook uniquely focuses on the central points at issue in contemporary Christian reflection. Olson's clear and concise overview roots contemporary questions firmly in Christian responses to the Enlightenment. This allows Olson to unfold those questions as bequeathed by modernity and to show how the radical reframing of the current period actually builds on the diversity of those lingering concerns.

Olson discusses the range of contemporary opinions, their rationales, and what's at stake. He illustrates these alternate frameworks as they play out in central concerns over the being of God in relation to the universe, how to understand the figure of Christ today, and the distinctively new notions of being human. Olson's text includes reflection and research questions, suggestions for further reading, and a glossary.
