Led Zeppelin formed in 1968 and used their heavy, guitar-driven blues-rock sound to become one of the progenitors of heavy metal and hard rock music. The band's individualistic style drew from many sources and transcended any one genre. Thirty years after disbanding, the band continues to be held in high regard for their artistic achievements, commercial success and broad influence. They sold over 200 million albums worldwide, including more than 111 million certified units in the United States, making them one of the best-selling artists of all time. This book gives you an in-depth look at all the intimate details about each of their albums, including a complete list of every song ever written or recorded by Led Zeppelin and a thorough analysis of the meanings and circumstances surrounding the writing and recording of each song. All of the customary song specifications are included (year, recording/release dates, album names, genre, length, label, writers, producers, personnel, instruments played, etc), but the heart of the book details the band's lyrical inspirations, collaborative efforts, the actual recording session drama and what occurred behind closed doors. It delves into the effect of the politics of the day on the boys' music and lifestyle, the critical reception of the music and, most importantly, the sometimes controversial relationship between the members of Led Zeppelin themselves.
