## Regional and International Relations of Central Europe

This timely book appears after a decade of scant scholarly focus on Central Europe and its place in Europe and the world. Following the big themes of the 1990s (the EU and NATO enlargement), the recent political and economic developments such as the revival of the 'Visegrad Four' and the emerging tensions as a consequence of nationalist movements across Europe, this book addresses important and provocative issues surrounding Central Europe. Is Central Europe a region and does it have its own history? Are there more commonalities than dividing lines among Central European countries? Can Central Europe be a player in global politics? Is there a special role for Central Europe in – Europe? These questions have brought together a group of experts whose interdisciplinary analysis with empirical research offers a fresh insight into Central Europe's position today.
