Research on Alcoholism Treatment: Methodology Psychosocial Treatment Selected Treatment Topics Research Priorities (Recent Developments in Alcoholism) (Volume 16) Marc Galanter

From the President of the Research Society on Alcoholism The sixteenth volume of Recent Developments in Alcoholism contains the latest information on the field of alcoholism treatment research. This scholarly volume includes comprehensive reviews of the methodologies available to evaluate treatment outcome, state-of-the art psychosocial interventions, and recent advances in pharmacological adjuncts to treatment that are currently available and those on the brink of application. Other sections of the book address special issues in the treatment of alcohol dependence, including the treatment of the adolescents and other unique populations, the management of tobacco dependence, and the role of spirituality in recovery, among others. The clinician will find these reviews an important resource for learning about evidence based treatments for alcoholism, and the researcher will find the synthesis of recent developments informative and forward looking. The research agenda for the future rests soundly on the progress to date and additional advances in the treatment of alcoholism can be predicted in the near future. Stephanie O'Malley, Ph. D. President, Research Society on Alcoholism xi Preface From the President of the American Society of Addiction Medicine This excellent volume presents investigations covering a wide spectrum of scientific issues. It is also evident that many of these articles have clinical significance, ranging from assessments of disorder, monitoring clinical progress, and behavioral and pharmacological interventions.
