Reasons, Rights, and Values

Robert Audi

Reasons, Rights, and Values Robert Audi

A central concern in recent ethical thinking is reasons for action and their relation to obligations, rights, and values. This collection of recent essays by Robert Audi presents an account of what reasons for action are, how they are related to obligation and rights, and how they figure in virtuous conduct. In addition, Audi reflects in his opening essay on his theory of reasons for action, his common-sense intuitionism, and his widely debated principles for balancing religion and politics. Reasons are shown to be basic elements in motivation, grounded in experience, and crucial for justifying actions and for understanding rights. Audi's clear and engaging essays make these advanced debates accessible to students as well as scholars, and this volume will be a valuable resource for readers interested in ethical theory, political theory, applied ethics, or philosophy of action.
