Digital technologies are an everyday part of life for students and this book explores the ways in which they can be used in schools. The authors provide insight into the research on digital technologies, stressing its relevance for schools, and suggest ways to develop new, more relevant pedagogies, particularly for social learning, literacy, and literate practices. With a practical focus, the examples and issues explored in this book will help you to analyze your own practice and to carry out your own small-scale research projects.
