Robinson's Current Therapy in Equine Medicine, 7e (Current Veterinary Therapy) Kim A. Sprayberry DVM DACVIM, N. Edward Robinson BVetMed PhD MRCVS Docteur Honoris Causa (Liege)

With coverage of current issues and the latest therapeutic advances, **Robinson's Current Therapy in Equine Medicine, Volume 7** provides a concise, all-new reference for the management of equine disorders and conditions. Chapters emphasize the practical aspects of diagnosis and treatment and provide details for therapeutic regimens. This new volume brings you thorough coverage and authoritative advice on selected topics in areas that have seen significant advances in the last five years. Cutting-edge topics include emerging and exotic infectious diseases that may endanger horses in North America; biosecurity strategies; imaging updates; medical genetics; multimodal pain management; and regenerative, geriatric, and oncologic medicine. A logical body-system organization will save you time in finding the information you need. From well-known editors Kim Sprayberry and N. Edward Robinson, with chapters written by nearly 200 equine experts, this invaluable reference provides unparalleled guidance on the latest issues in equine medicine.

- **Key topics** include all-new coverage of the latest developments in imaging, biosecurity strategies for individual horse owners and owners of commercial farms and stables, diseases affecting horses at various ages, and a review of colic and other GI tract conditions.
- **A recognized panel of nearly 200 expert contributors** represents thriving private equine practices, referral hospitals, and academia, and provides insight on challenges, developments, and differing perspectives from around the world.
- **A succinct approach** is used to discuss pathophysiology and diagnosis, but therapeutics are covered in detail.
- **The Current Therapy format** focuses on emerging trends, treatment protocols, and diagnostic updates new to the field, providing timely information on the latest advances in equine medicine.
- **A body systems organization** makes it easy to find solutions for specific disorders.
- **Suggested readings** at the end of each chapter cite peer-reviewed articles and other sources for further research and study.
- **ALL-NEW topics** provide updates on infectious diseases, including herpesvirus, equine granulocytic anaplasmosis, and lawsonia infection and proliferative enteropathy; pain diagnosis and multimodal management; management of thoracic and airway trauma, imaging, endoscopy, and other diagnostic procedures for the acute abdomen; and neurologic injury.
- **212 concise, NEW chapters** include both a succinct guide to diagnosis of disorders and a detailed discussion of therapy.
- **NEW images** demonstrate advances in various imaging techniques.
- **Thoroughly updated drug appendices**, including all-new coverage of drug dosages for donkeys and mules, provide a handy, quick reference for the clinical setting.

It can be your alternative within spending your spare time, often the book you have read is usually Robinson's Current Therapy in Equine Medicine, 7e (Current Veterinary Therapy).

Cheryl Bullen:

As a university student exactly feel bored to help reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just very little students that has reading's internal or real their interest. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that looking at is not important, boring and can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore, this Robinson's Current Therapy in Equine Medicine, 7e

(Current Veterinary Therapy) can make you truly feel more interested to read.
