## **Modern Manufacturing Technology and Cost Estimation: A systematic approach with engineering vision** Michael Lembersky

Modern Manufacturing Technology & Cost Estimation offers a systematic coverage of essential advanced manufacturing processes. Throughout the book authors stress practical approach to near-net-shape and non-traditional (EDM, ECM) processes. Technological developments have recently advanced along with materials, tooling and machines. This book serves as the concise resource related to:  $\zeta$  Electrophysical and electrochemical methods and principles  $\zeta$  Near-net-shape processes and applications  $\zeta$  Technological Knowledge systems developments  $\zeta$  material - process: cost relationships  $\zeta$  technology-oriented published, Internet and periodical information This book enables a practitioner:  $\zeta$  efficiently perform feasibility study  $\zeta$  develop a basis for cost-oriented decision support.  $\zeta$  acquire new knowledge or to refresh knowledge related to manufacturing analysis and characteristics. This on-the-job book will support cost justification studies, reduce decision time which is critical for busy professionals. Furthermore, it offers common engineering vision for the cross-functional team of manufacturing engineer, product designer, purchasing specialist, sales and marketing professionals. It is written for a practitioner who does not have time to undertake the long hours needed to research the subject The cost reduction course presented in this book can become a model for a set of training courses. Additionally, the book contains useful visual models and templates, examples and diagrams. If technologies described in this book can replace several traditional operations, consolidate product features and improve quality, that means, based on Modern Manufacturing Technology & Cost Estimation a practitioner will be able:  $\zeta$  generate more creative and cost saving ideas, concepts  $\zeta$  correctly diagnose a manufacturing problem  $\zeta$  optimize material and process selection  $\zeta$  improve mold and die manufacturing processes<

### **From reader reviews:**

#### **Abram Huffman:**

Have you spare time for any day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity intended for spend your time. Any person spent their particular spare time to take a go walking, shopping, or went to the Mall. How about open or read a book eligible Modern Manufacturing Technology and Cost Estimation: A systematic approach with engineering vision? Maybe it is being best activity for you. You realize beside you can spend your time with the favorite's book, you can better than before. Do you agree with it has the opinion or you have various other opinion?

#### **Forest Nelson:**

What do you about book? It is not important with you? Or just adding material if you want something to explain what your own problem? How about your spare time? Or are you busy particular person? If you don't have spare time to do others business, it is gives you the sense of being bored faster. And you have time? What did you do? Everyone has many questions above. The doctor has to answer that question because just their can do in which. It said that about e-book. Book is familiar on every person. Yes, it is right. Because start from on guardería until university need this kind of Modern Manufacturing Technology and Cost Estimation: A systematic approach with engineering vision to read.

#### **Erin Mohammad:**

This book untitled Modern Manufacturing Technology and Cost Estimation: A systematic approach with engineering vision to be one of several books this best seller in this year, this is because when you read this e-book you can get a lot of benefit in it. You will easily to buy this specific book in the book retail outlet or you can order it by way of online. The publisher of the book sells the e-book too. It makes you quickly to read this book, since you can read this book in your Touch screen phone. So there is no reason to you to past this guide from your list.

#### **Charles Simpson:**

Do you one of the book lovers? If yes, do you ever feeling doubt while you are in the book store? Attempt to pick one book that you find out the inside because don't evaluate book by its deal with may doesn't work here is difficult job because you are afraid that the inside maybe not as fantastic as in the outside look likes. Maybe you answer could be Modern Manufacturing Technology and Cost Estimation: A systematic approach with engineering vision why because the great cover that make you consider with regards to the content will not disappoint anyone. The inside or content is fantastic as the outside or maybe cover. Your reading 6th sense will directly guide you to pick up this book.
